The two (2) items of information contained in the Information Disclosure Statement were first cited in a Patent Cooperative Treaty (PCT) International Search Report (ISR) for a counterpart foreign application for the above-referenced invention, International Application No. PCT/US03/29095. The PCT ISR was completed, citing the disclosed information, on April 22, 2004, not more than three (3) months prior to the filing of the present Information Disclosure Statement.

Applicant specifically emphasizes that this statement, and/or the act of providing copies of these references, is not to be construed as an admission that all or any

of the references are prior art to the specific invention disclosed and claimed. Also, nothing in this statement is to be construed as a representation that this is the only information to be found, or the best. It, however, is the only additional information known to the applicant at this time that is believed to meet the requirements of 37 CFR §1.56. If additional qualifying references or other information is discovered in the future, such will be submitted promptly to fulfill applicant's continuing duty of disclosure under 37 CFR §1.99.

As all of the references listed are in English, under 37 CFR §1.98(a)(3), no commentary is required. A copy of each reference, together with a listing on form PTO/SB/08A, is submitted herewith. Applicant respectfully solicits the Examiner's consideration of the cited references and entry thereof into the record of this application.

No additional fees are believed to be due, however, the Commissioner is hereby authorized to change any additional fee deemed to be due to Deposit Account No. 19-4430.
